Installation USB AVR Programmer

### **Step I**

Plug the AVR programmer into an available USB port of your PC. Wait until Windows® shows found new hardware wizard as follows. Select **No, not this time** and click next.

Found New Hardware Wizard		
	Welcome to the Found New Hardware Wizard	
	Windows will search for current and updated software by looking on your computer, on the hardware installation CD, or on the Windows Update Web site (with your permission). Read our privacy policy	
	Can Windows connect to Windows Update to search for software?	
<ul> <li>Yes, this time only</li> <li>Yes, now and every time I connect a device</li> <li>No, not this time</li> </ul>

# Step I

# Step II

#### **Step III**

- Select "search the best driver in the following location"
- Select "Include this location in the search" and click browse.
- Select the "win-driver" in the Driver CD and click next. ("win-driver" is located in the Folder "USB AVR Programmer" in CD/DVD)

Found New Hardware Wizard
Please choose your search and installation options.
<ul> <li>Search for the best driver in these locations.</li> <li>Use the check boxes below to limit or expand the default search, which includes local paths and removable media. The best driver found will be installed.</li> </ul>
<ul> <li>Search removable <u>m</u>edia (floppy, CD-ROM)</li> <li>✓ Include this location in the search:</li> <li>My Tutorials\AVR\usbasp.2007-07-23\bin\win-drivet</li> </ul>
<ul> <li><u>D</u>on't search. I will choose the driver to install.</li> <li>Choose this option to select the device driver from a list. Windows does not guarantee that the driver you choose will be the best match for your hardware.</li> </ul>

### Step V

Step V

# **Step VI**

Step VI

Now hardware is Installed and Ready to use. After this you just need to install the programmer software. Go to "*Software*" folder in "*USB AVR Programmer*" and run *Setup.exe*, follow on screen instructions. After Installation, a Desktop Icon (optional) and Start Menu Entry will be created which can be used to launch the Software.

*Please see* **"Tutorial.pdf"** *in* **"USB AVR Programmer\Help"** *folder for more information on the software.*
